number of cases pending in the High Courts was 38,82,074 as on 30.6.2008.

(b) The working days in the Supreme Court and High Courts are regulated by the rules framed by the respective Courts.

(c) This Ministry is not aware of any such suggestion.

(d) and (e) After identifying some of the more important factors responsible for pendency of cases in courts, various Committees and Commissions have made suggestions/recommendations for reducing backlog of court cases which include increasing of judges strength, providing financial support for construction of court buildings, computerization of courts, reduction in vacations in courts and adopting Alternating Dispute Redressal Mechanism etc. Government has already increased the sanctioned strength of judges in the High Courts. Schemes for Development of Infrastructural Facilities for Judiciary and computerization for all the Courts in the country are being implemented. Fast Track Courts have been instituted for speedy disposal of long pending Sessions cases and the cases involving undertrials in jails. Alternative modes of disposal including mediation, negotiation and arbitration have been encouraged. With a view to ensuring expeditious disposal of cases, the Civil Procedure Code and Criminal Procedure Code have been amended and the concept of 'Plea Bargaining' has been introduced. Supreme Court has reduced summer vacation from 8 weeks to 7 weeks.

Non-availability of basic facilities in rural schools

*192. SHRIMATI SUPRIYA SULE: Will the Minister of HUMAN RESOURCE DEVELOPMENT be pleased to state:

(a) whether the Central Government has expressed its serious concern over the non-availability of toilets and potable water in all the rural schools in the country;

(b) whether Government has decided that it is compulsory that teachers, toilets, potable water and other necessary facilities are made available to all the rural schools in the country;

(c) if so, what is the percentage of schools, at present, where there are no such facilities; and

(d) whether Government has made it compulsory that all the schools, especially in rural areas, should have such facilities before starting operation of schools?

THE MINISTER OF HUMAN RESOURCE DEVELOPMENT (SHRI ARJUN SINGH): (a) to (d) As per District Information System of Education (DISE) 2007-08 data, national Pupil Teacher Ratio is 34:1 at primary level and 31:1 at upper primary level against a norm of 40:1. Under the Sarva Shiksha Abhiyan (SSA) programme, additional teachers are provided where elementary schools have a PTR of more than 40:1. Till 2008-09, 12,28 lakh teachers have been sanctioned under the programme.

The SSA programme convergences with the Total Sanitation Campaign and Drinking Water Mission of the Ministry of Rural Development for accelerated coverage of toilets and drinking water facilities in rural elementary schools. So far 2.65 lakh toilets and 1.93 lakh drinking water facilities have been sanctioned under the SSA programme.

Return on investment made in SEBs

*193. SHRI S.S. AHLUWALIA: Will the Minister of POWER be pleased to state:

(a) whether Government has envisaged certain minimum Return on Investments (RoI) made in each of the State Electricity Boards (SEBs);

(b) if so, the details thereof;

(c) the details of total funds lying invested in SEBs, State-wise, till 30th September, 2008, indicating the annual rate of gross and net returns achieved by each, year-wise, since 2000-01;

(d) the steps initiated, if any, in respect of SEBs where RoI remained below the minimum level and/or suffered negative RoI;

(e) whether Government has conducted any study into the affairs of such SEBs;

(f) if so, the outcome of the exercise; and

(g) if not, the reasons therefor?

THE MINISTER OF POWER (SHRI SUSHILKUMAR SHINDE): (a) and (b) No, Sir. However, Government of India has notified the Tariff Policy on 6.1.2006 in compliance with Section 3 of the Electricity Act, 2003; para 5.3(a) of the Tariff Policy deals with 'Return on Investment'. It provides that the rate of return on investment should be such that it allows generation of reasonable surplus for growth of the sector. According to the Policy, the rate of return on equity for generation and transmission projects notified by Central Electricity Regulatory Commission (CERC) would be the basis for the rate of return to be adopted by the State Electricity Regulatory Commissions (SERCs). CERC has presently notified a return of 14% on equity. The rate of return notified by CERC for transmission may be adopted by the State Electricity Regulatory Commissions (SERCs) for distribution with appropriate modification taking into view the higher risks involved.

(c) The Power Finance Corporation (PFC) has, for the last few years, been publishing Annual Report on Performance of State Power Utilities. The Report covers State Power Utilities, unbundled Utilities (State Electricity Boards)/Power Departments and private distribution Companies created as a result of reform measures in various States. In terms of PFC's methodology, the total funds invested (capital employed) in the utilities may be by way of equity capital, retained earnings or borrowed funds. The total funds invested or capital employed in the utilities is computed by adding equity capital, reserves and surplus, total loans, grants and consumer contribution. The return on total funds invested / capital employed in the utilities is computed as percentage of profit before interest to total funds invested / capital employed. The information for the years 2002-03 to 2006-07 in respect of total funds invested (capital employed) in the utilities and return thereon is available in PFC. The details are enclosed as Statement-I (*See* below). The source of data for computation of the information (audited, provisional annual accounts / annual resource plans) is enclosed as Statement-II (*See* below).

(d) Electricity is a concurrent subject. The appropriate Electricity Regulatory Commission shall, subject to the provisions of the Electricity Act, 2003, (Act) specify the terms and conditions for the determination of tariff, and in doing so, shall be guided by the provisions of section 61 of the Act, including the National Electricity Policy and Tariff Policy. The Tariff Policy cast the duty of notifying the rate of return on equity on the Appropriate Electricity Regulatory Commissions. The State Electricity Regulatory Commissions (SERCs) specify in their regulations the terms and conditions of tariff which also includes the Return on Equity (ROE) for the distribution licensees including the State Electricity Boards (SEBs) where such Boards exist. SERCs are also stipulating, under the Multi Year Tariff regime, efficiency improvement parameters including targets for reduction of distribution losses.

(e) to (g) Do not arise in view of (d) above.

Statement-I

Return on Investments made in SEBs
